

9/11 Conspiracy Theories- Myths and Realities

Recent TV documentaries shown in Russia and other countries have claimed that various conspiracies lay behind the 9/11 attack, blaming the U.S. Government, Israel, or a combination of other alleged conspirators.

This baseless speculation slanders the memory of all those who were murdered on that tragic day. The programs themselves admit they are not based on fact. They recycle old theories and ideas that have long ago been discredited by international experts and independent bodies. Al Qaeda continues to claim responsibility for these horrific crimes, even as late as six months ago.

The reality is that Al-Qaeda carried out the attacks and killed nearly three thousand innocent people.
