Other Services

The majority of our students will have their place of employment in Panama City Beach, Florida. That is where our American partners Third Edition, Inc are located. So the participants will fly to Atlanta, where they will be met in the airport by the representatives of Third Edition, Inc and who will then accompany them directly to Panama City Beach by bus (Greyhound). We do our best to make sure that no job/housing problems happen for the participants, but even if something goes wrong we will get in touch with our American partners Third Edition, Inc, who will offer the participant another job or housing. It is a great advantage for us that our students are placed in Panama City Beach, Florida and nearby cities and it is there that our partners are located, so all problems and questions can be dealt with at the spot.
