The amount, paid for the job-offer is also getting reimbursed.

Other Services

Camp program providers (AIFS and BUANEC) meet at the airport every participant. Work&Travel program provider (CIEE) is meeting in the airport groups of 20 students and more. We check on students after they arrive, and we pay much attention to the job and housing conditions of our participants.

If the housing conditions are not sufficiently good, our partners in US are helping to find an alternative housing option. If the participant wishes to change the job, he addresses himself to the program provider with detailed explanation and gets a new job offer if provider finds it necessary.

Our program providers have 24-hours toll-free help-lines with Russian speaking operators. They record all phone calls and provide participants with all the necessary assistance. Students can also always call our Moscow office.
