Web Site:

Business started in 2000

Services

All clients of INTEX conclude to agreements: the first one with INTEX and the second one with our partner agency UAB ZIP Travel. There two basic types of the program cost: when the agency provides the student with a Job Offer and when the student has his own Job Offer (in this case we just verify it).

The list of INTEX provided services includes the following:

1. Providing the participant with all the necessary papers for his participation in the program.
2. Providing the participant with consultations on questions that are related to his participation in the program, and also with the information necessary for filling in all the program forms and documents.
3. Providing assistance to the participant in getting all the documents for the participation in the program (including J-1 visa, airline tickets).
4. Finding an American sponsor responsible for providing the participant with all the necessary program documents and services (DS-2019 form, medical insurance etc), helping the participant to conclude the agreement with this American sponsor.
5. After getting the DS-2019 form helping the participant with filling in the documents necessary for obtaining a J-1 visa and submitting them to the US Consulate.
6. Providing the participant with information about the stages which his documents go through during the application process.
7. Providing the participant with twenty-four hour information help (in Russian and in English). INTEX has a twenty-four hour emergency phone line which can be used by the participant or his parents in case of emergency.
8. In case the participant chooses the program option when the agency finds him a Job Offer, find him/her an employer and provide the student with a Job Offer from this employer.
9. Accompanying participants at the interview in the US Consulate.

Fees

- INTEX services cost: 7790 RUR
- UAB “ZIP Travel” cost from 515 USD

The cost of airline tickets is not included in the price, but per agreement the participant can be provided with tickets at the lowest possible price.

If a visa is refused, as per our agreement the participant gets back all his fees apart from the consular fee (which is non-refundable) and 65 dollar for the trip cancellation and interruption insurance in case he/she choose this option.

In case he does not pay for the trip cancellation and interruption insurance he loses the consular fee, the SEVIS fee and the visa denial fee of a sponsor.

Other Services

In 2009 we plan to rent an information desk in JFK in cooperation with UAB ZIP Travel. This will allow all the participants to get all the necessary help and information at the US airport.

In each case the employer provides a detailed description of any vacancy (salary, working and often living conditions). In case the given description does not correspond with the real situation or when the participant is not given a job upon, we contact the employer and try to find out the reason for that. In case nothing in the conditions can be changed or the participant will not be hired we will find a new job for such a participant for free.

In case the participant does not get his job through no fault of his own we try to provide him with a new one for free. If housing is listed in a JO and is not provided by the employer we will try to convince him to fulfill his obligations.
