E-mail: ostltd@online.ru
Web Site: www.ostltd.ru

Business started in 1996. The main business of our company is seasonal work placements for Russian citizens abroad, youth student trainee programs, and education abroad.

Services

Regarding Work & Travel USA program – OST Ltd provides all the possible services to our clients: we help students to fill and prepare all the necessary forms for the program, we help students to find the work placement in US, we issue ISIC, we help students to book and buy the air tickets, we prepare students to pass the interview in US Embassy/Consulate (different English courses), etc. OST Ltd has only 2 different options for W&T program: with work placement and without work placement (in that case the student has to find the work placement by himself and such work placement should be verified by OST Ltd and our sponsor before the student will pass the interview at the US Embassy/Consulate).

Fees

Work & Travel USA 2009 prices:

- 26,800 rubles for the program without work placement (student has to find the work placement himself before passing the interview at the US Embassy/Consulate)
- 31,400 rubles for the program including work placement

These prices also include commission for our representatives in different cities of Russia.

No other charges will be made except:

- SEVIS Fee - \$35
- Visa fee - \$131

We do not include tickets to the price of the program

There is a non-refundable sum of 8400 rubles in case of visa denial (sponsoring agency non-refundable fee is also included in that sum). Our company also offers special insurance for 1800 rubles. If the client buys insurance then there will be no non-refundable charges in case of visa denial.

Other Services

In 2009 our representative will meet all our participants who fly to New York, NY during May-middle of July.

All our participants should contact OST Ltd. and let us know that they have arrived to

satisfactory job/housing. After that we will find out all the conditions.

Each of our sponsoring organizations has 24-hours toll-free phone numbers. If there is any problem – students can call sponsor. If the student has any problems with his employer or housing (and it is not his fault), than we check the situation and if necessary we provide new work placement or housing in the same state (or very close). Besides, we would pay for such trip to the new work placement or housing.
